

# Parents And Teachers Together

## What is PATT?

PATT is an organization made up of York Elementary School parents/guardians and staff members who are dedicated to enhancing the educational experiences of all Y.E.S. students. Our purpose is to complement the school's curriculum by providing supplies, equipment, events and programs that work to improve the environment of our school. There are many opportunities for families to become involved in PATT and to help make Y.E.S a safe, productive and fun place to learn!
